TURBO® II STRIPPER

Smooth, hand operated feather clutch provides ease of operation

3 weight positions for adjusting aggressiveness

5,000 strokes/minute impact mechanism provides fast & effective flooring removal

Turbo® II Stripper #39086
Heavy duty floor stripper for removal of any type of bonded flooring

- 5,000 strokes/minute heavy duty impact & propulsion system provides fast & effective flooring removal
- 3 weight positions for adjusting aggressiveness
- Smooth, hand operated feather clutch provides ease of operation
- Detachable weight and handle for easy transportation
- Multiple blade widths & styles for all types of flooring removal
- Fully self-propelled
- Restart cutout for safe operation

Technical specifications:
115V, 60Hz, 3 HP motor, soft start switch, max. working width 6”-14”, 5,000 strokes/min, total weight of machine 350 lbs, stripping capacity approx. 645-1075 square feet/hour

Includes:
Turbo II Stripper, 1 blade 14” x 1 mm, 1 blade 14” x 1.5 mm, 1 U-shape blade with top cutting edge, 1 U-shape blade with bottom cutting edge, tool kit, hearing protection, safety gloves, blade cover, lifting straps, extension cord, extra weight

Watch the Turbo II in action
Our technical training managers have over 150 years of combined experience in the floor installation industry. We will show you the latest innovations in floor installation tools and techniques that you can immediately put into practice in your daily work. From floor removal and demolition to adhesive application, floor installation and heat welding, our tools and technical expertise will allow you to set a new standard for quality floorcovering installations.

Protect your investment with regular maintenance or repair. Wolff has a main service center located in Denver, Colorado with satellite locations throughout the U.S.¹ There is no need to have your machine sitting idle and not making money for you.

- Extend the service life of your machine
- Extended warranty available with complete overhaul²

¹Please contact us for other service center locations.

Replacement blades for Turbo II & Extro-Stripper

| 14” x 2-3/8” x 1 mm, 10 pcs. | #13978 |
| 8” x 2-3/8” x 1.5 mm, 10 pcs. | #13980 |
| 14” x 2-3/8” x 1.5 mm, 10 pcs. | #13979 |
| 6” x 2-3/8” x 1.5 mm, 10 pcs. | #13981 |
| 14” x 5” x 1.5 mm, 1 pc. | #13979 |

Special 14” U-shape blade for Turbo II & Extro-Stripper

| Top cutting edge (for hard substrates like concrete) | #13983 |
| Bottom cutting edge (for soft substrates, like plywood) | #39333 |

Inclination adapter for Turbo II & Extro-Stripper

- Changes the blade angle
- More aggressive on carpeting

Inclination adapter | #15525

Special blade for Turbo II & Extro-Stripper

Heavy duty, angled, for heavy flooring materials, 14”.

For new stripper versions | #39362
For old stripper versions (kit complete) | #15532

Leather blade cover

For Turbo II & Extro-Stripper | #33204

Additional weight, 66 lbs

For Turbo II Stripper | #38535

Running gear

For Turbo II Stripper | #62227

NOTE: Running gear protects your machine by keeping the striking mechanism elevated and away from the ground during transportation

Hardwood Stripper Set

Turbo II deflector kit for stripping hardwood floors. Keeps debris from wheels.

#63754

Includes:

- Deflector, underrun protection, special blade (heavy duty), hardwood deflector blade holder.

Accessories:

- Hardwood deflector | #63752
- Underrun protection | #53415
- Special blade (heavy duty) | #39362
- Hardwood deflector blade holder | #63753

Extral STrIpper

Patented pull-back system is especially effective on aggressive flooring materials

Impact plate cover eliminates lodging of flooring material

5,000 strokes/minute impact mechanism is fast & effective

How the pull-back system works:

When approaching a wall or other object, simply pull the handle to raise the drive wheels. The machine stops while the drive wheels continue to rotate.

Pull the machine back further to gain additional momentum against more aggressive flooring materials or to adjust for your next stripping path.

Push the handle forward to lower the drive wheels back to the ground to begin moving forward again.

Technical specifications:

- 115V, 60Hz, 3 HP motor, 5,000 strokes/min, 20 amps, total weight 240 lbs, weight of detachable hood 92 lbs, blade width 14”, stripping capacity up to 860 sq feet/hour

Includes:

- Extro-Stripper, 1 blade 14” x 1 mm, 1 blade 14” x 1.5 mm, 1 U-shape blade with top cutting edge, 1 U-shape blade with bottom cutting edge, tool kit, safety gloves, hearing protection, blade cover, lifting straps, extension cord

Vario STrIpper SILENT

Quiet running motor for occupied work environments

Emergency shut-off switch

Height adjustable handle

Vario drive: Continuous speed control up to 52 ft per minute

Technical specifications:

- 115V, 60Hz, 2.25 HP motor (impact & drive motor), soft start switch, 3,000 RPM, total weight of machine 230 lbs, detachable hood 66 lbs, detachable handle 37 lbs, max. working width 10", speed 8-52 feet/min, stripping capacity 320-750 sq feet/hour

Includes:

- Vario-Stripper Silent, 1 blade 10” x 0.7 mm, 1 blade 10” x 1 mm, 1 blade 10” x 1.5 mm, 1 U-shape blade with top cutting edge, 1 U-shape blade with bottom cutting edge, tool kit, safety gloves, blade cover, lifting straps, extension cord

Variostripper Silent #50202

Quiet running stripper for use on remodel projects during normal business operations

- Low noise motor allows for use during normal business operations (hospitals, retail space, office buildings)
- Pull-back system for safe operation in corners and along walls
- Vario-drive: continuously adjustable speed between 8-52 ft/min
- Self-propelled machine provides exceptional ease of use, controls are located at top of handle
- Blade angle can be changed to adjust to different floor coverings and working conditions
- Easy to transport due to detachable weight and handle

Technical specifications:

- 115V, 60Hz, 2.25 HP motor (impact & drive motor), soft start switch, 3,000 RPM, total weight of machine 230 lbs, detachable hood 66 lbs, detachable handle 37 lbs, max. working width 10”, speed 8-52 feet/min, stripping capacity 320-750 sq feet/hour

Includes:

- Vario-Stripper Silent, 1 blade 10” x 0.7 mm, 1 blade 10” x 1 mm, 1 blade 10” x 1.5 mm, 1 U-shape blade with top cutting edge, 1 U-shape blade with bottom cutting edge, tool kit, safety gloves, blade cover, lifting straps, extension cord

Watch the Vario Stripper in action
**Duro® Stripper #15539**

- **8,500 RPM**
- Can also be operated as a hand tool
- Wheel assembly for easier operation & transport

**Technical specifications:**
- 115V, 60Hz, 2.75 HP motor, 8,500 RPM, total weight approx. 35 lbs, stripping capacity approx. 320-540 sq feet/hour

**Includes:**
- Duro-Stripper, 1 blade 8” x 0.7 mm, 1 blade 8” x 1.5 mm, tool kit, blade cover, carrying case

**Accessories:**
- Carrying case #13349
- Transport Wheel Assembly #16151

**Razor Blade Attachments for Bravo, Eco, Duro**

- For attaching razor blades

**Replacement blades for Vario-Stripper Silent**

- 10” x 2-3/8” x 0.7 mm, 10 pcs. #38765
- 10” x 2-3/8” x 1.5 mm, 10 pcs. #38767

**Serrated blades for Vario-Stripper Silent**

- For removing flooring with felt or fleece backing. The serrated edges create a sawing action which helps with difficult to remove flooring.
- 10” x 2-3/8” x 1 mm, 1 pc. #46401

**Special U-shape blade, 10”, for Vario-Stripper Silent**

- For simultaneous pre-cutting and stripping of the floor (for vinyl, PVC and linoleum).
- Top cutting edge (for hard substrates like concrete) #38768
- Bottom cutting edge (for soft substrates, like plywood) #38932

**Replacement blades for Bravo-Stripper, Duro-Stripper and Eco-Stripper**

- 8” x 2-3/8” x 0.7 mm, 10 pcs. #13344
- 8” x 2-3/8” x 1 mm, 10 pcs. #13545
- For vinyl, linoleum, PVC and rubber

**Serrated blades for Bravo-Stripper, Duro-Stripper and Eco-Stripper**

- For removing flooring with felt or fleece backing. The serrated edges create a sawing action which helps with difficult to remove flooring.
- 8” x 2-3/8” x 1 mm, 1 pc. #46402

**Leather blade cover**

- For Duro- and Eco-Stripper #33203

---

**BRAVO® STRIPPER**

**Bravo® Stripper #16162**

8” wide stripping machine ideal for mid-sized projects

- 8,500 RPM
- Variable speed control
- Adjustable blade angle
- Adjustable handle angle
- Dual dedicated motors (drive system & blade cutting action)
- Hand operated drive system clutch
- Additional weight included

**Technical specifications:**
- 115V, 60Hz, 2.5 HP motor, 8,500 RPM, total weight approx. 145 lbs, working width max. 8”, stripping capacity approx. 320-645 sq feet/hour

**Includes:**
- Bravo-Stripper, 1 blade 8” x 2” x 0.7 mm, 1 blade 8” x 2.5” x 1 mm, tool kit, hearing protection, safety gloves, blade cover, extension cord

**Accessories:**
- Business case #13349
- Transport Wheel Assembly #16151

**Razor Blade Attachments for Bravo, Eco, Duro**

- For attaching razor blades

---

**Special U-shape blade, 10”, for Vario-Stripper Silent**

- For simultaneous pre-cutting and stripping of the floor (for vinyl, PVC and linoleum).
- Top cutting edge (for hard substrates like concrete) #38768
- Bottom cutting edge (for soft substrates, like plywood) #38932

**Replacement blades for Vario-Stripper Silent**

- 10” x 2-3/8” x 0.7 mm, 10 pcs. #38765
- 10” x 2-3/8” x 1.5 mm, 10 pcs. #38767

**Serrated blades for Vario-Stripper Silent**

- For removing flooring with felt or fleece backing. The serrated edges create a sawing action which helps with difficult to remove flooring.
- 10” x 2-3/8” x 1 mm, 1 pc. #46401
### ECO® Stripper #50158

Economical floor stripper for universal use on small to medium-sized areas.

- Lightweight and easy to use
- 2.75 HP Motor
- Great for working around edges

Technical specifications:
115V, 60Hz, 2.75 HP motor, soft start switch, max. working width 5-8", total weight 7 lbs, stripping capacity approx. 270-430 sq feet/hour

Includes:
- Eco-Stripper, 1 blade 5" x 2-3/8" x 1 mm, tool kit, hearing protection, safety gloves, blade cover

### Junior® Stripper #50080

Hand-held stripper ideal for removing small areas of carpeting, foam or flooring residues.

- Great for hard to reach areas like under radiators
- Perfect for areas along walls or in closets
- Great for stairs

Technical specifications:
115V, 60Hz, 1.75 HP motor, max. working width 5-8", total weight 7 lbs

Includes:
- Junior Stripper, 1 blade 5", tool kit, safety gloves, hearing protection, carrying case, blade cover

Accessories:
- Replacement blades 5", 10 pcs.
- Replacement blades 8", 10 pcs.
- Leather blade cover

### SAMBA Grinding Machine #63047

Powerful machine for grinding substrates or leveling compounds.

- 2.25 HP Motor
- Ideal for small to medium-sized areas
- Quiet operation

Technical specifications:
115V, 60Hz, 2.25 HP motor, 160 RPM, 97 lbs, working width 15-16"

Includes:
- SAMBA Grinding Machine, extension cord
- Handle Mounted Vacuum

Accessories:
- Drive plate with sponge padding
  For abrasive paper, HM grinding discs and abrasive screen.
  - Diameter 15" drive plate complete: #13289
  - Diameter 16" drive plate complete: #13327
  - Sponge padding:
    - Diameter 15" replacement pad: #13500
    - Diameter 16" replacement pad: #13328

- Drive plate with felt
  Diameter 15":
  - Drive Plate Complete: #13501
  - Replacement Felt Pad: #13526

- Drive plate with felt
  Diameter 16":
  - Drive Plate Complete: #13501
  - Replacement Felt Pad: #13526
NINJA DIAMOND GRINDING DISC

Innovative, effective, easy to use
• Extremely effective grinding disc for monodisc grinding machines
• High quality, long-lasting cutting segments
• Unique WOLFF design
• Easy to change cutting segments due to the innovative slide-lock system
• Diamond cutting segments for different removal requirements.

Comes with application table.
1 Use on adhesives, thin leveling compounds and coatings
2 Use on thick adhesives, tile mortars, jute & fleece backing and thicker layers of leveling compound
3 For soft to very soft substrates
4 For hard to very hard substrates

Ninja complete with PCD Split segments
PCD Split segment only
#68867
#63369

Ninja complete with PCD Scraper segments
PCD Scraper segment only
#68866
#63388

Ninja complete with BT K20 segments
BT K20 segment only
#68869
#63390

Ninja complete with ES K20 segments
ES K20 segment only
#68868
#63391

NINJA DIAMOND GRINDING DISC
Extremely effective diamond grinding disc
Easy to change cutting segments due to the innovative slide-lock system
Long tool life of cutting segments

Abrasive paper discs, double-sided

Flat steel brush disc
For scraping foam, felt or jute residues. For gypsum-based leveling compounds and for industrial floor cleaning. Wire length 1-3/4”.

Grinding plate with 6 stones, grit 20
For grinding concrete or compounds and for removing unevenness, paint or plaster residues.

Accessories:
Stone, grit 20
#13490

Grinding plate with hard metal ring
The hard metal ring has the same function as the hard metal discs. However, the ring has a longer service life and offers more aggressive grinding. Well suited for removing old fleece residues.

Grit 16
#14254
Grind 24
#14255

Hard metal ring, grit 16
#14256
Hard metal ring, grit 24
#14257
Subfloor Preparation

Grinding plate with diamond grinding heads, fan-type helical design
For grinding all common coatings, compounds and, in particular, concrete floors. Even extremely hard compounds can be ground without any problem.
Grinding disc with diamond grinding heads, fan-type #14246
Accessories:
Diamond grinding head, fan-type helical design #14249

Milling module with rotating discs
For preparing substrates of any kind. #34284
Accessories:
Single milling module #34285
Gliding disc #34286
Wheel set per module, 12 pcs. #34288

Modular milling disc w/carbide bits
For removing thick layers of adhesive with fiber, felt or foam residues. #13569
Accessories:
Milling module with carbide bits #13550
Carbide bit (1 pc.) #13566

Diamond grinding disc
For repairing concrete and removing coatings.
Diamond grinding disc, single row #15932
Diamond grinding disc, double row #15933

Diamond grinding disc Raptor
Extremely aggressive diamond grinding disc to remove very tenacious old flooring residues such as epoxy and other coatings. Suitable for removal only.
HM grinding disc
To remove adhesives and compounds.
HM grinding disc, 7”, grit 16 #15934
HM grinding disc, 7”, grit 24 #15935

Floor Installation

MASTER GROOVER™

• Automatic depth control
• Electronic speed control
• Great for uneven surfaces

Master Groover™ #50159
The powerful WOLFP floor joint groover with carbide grooving disc
• Automatic depth control for grooving of joints on uneven substrates
• Adjustable lateral guiding wheel for installing studded rubber floors
• Improved transmission is faster and more powerful
• Improved chip & residue pan reduces dust emission
• Hand guard improves operator safety
• Simple grooving depth adjustment up to 3/16” - perfect for uneven floors
• 3 wheels for perfect stability - avoids wedging
• Automatic recessing disc eliminates damage to floor
• Electronic soft start switch

Technical specifications:
115V, 60Hz, 2 HP motor, 6,000-10,000 RPM, soft start switch, blade diameter 5”

Includes:
Master Electric Groover, semicircular HM grooving disc 1/8” (12 tooth), tool kit, dust bag, protective goggles, hearing protection, carrying case
* For accessories see Junior Electric Groover

JUNIOR GROOVER

• Depths up to 3/16”
• 3-point support avoids wedging
• Clean start

Junior Electric Groover #50160
For grooving all types of resilient flooring
• Grooving depth adjustment up to 3/16”
• Perfect 3-point support to avoid wedging
• Clean start using the dive-in principle
• New generation high-speed motor
• Improved chip & residue removal

Technical specifications:
115V, 60Hz, 2 HP motor, 8,000 RPM, disc diameter 5”

Includes:
Junior Electric Groover, semicircular HM grooving disc 1/8” (12 tooth), tool kit, dust bag, protective goggles, hearing protection, carrying case
*Accessories for Master and Junior Groovers:
WELDMASTER
AUTOMATIC WELDER

- Digital temperature control
- Robust and compact design
- Superior welding results

WeLDMastEr AuToMATIC WeLDeR

Weldmaster Automatic Welding Machine #56260
The WOLFF automatic welding machine for any requirement

- Digital thermometer for precise temperature selection
- Compact design
- Centrally located controls for easy operation
- Can be used for all resilient floor coverings (vinyl, PVC, linoleum, polyethylene, rubber) without any retrofitting
- Variable pressure control for improved welding results
- 4 individual welding nozzles for exact hot air distribution
- Minimal movable parts for a rugged yet precise machine
- Automatic wall shut off/lifting device allows the next joint to be welded immediately
- Special nozzle avoids thermal shock & burns

Technical specifications:
115V, 3100 W; temperature range 68–110°F; speed 5.5–19’/min; weight 31 lbs; materials: vinyl, PVC, linoleum, polyethylene, rubber

Includes:
Weldmaster Automatic Welding Machine, brass cleaning brush, carrying case

Option:
Half round attachment used for welding half round welding rod #15063

LeISTER TRIAC S
WELDING KIT

- Precise heat control thermostat
- 1600 Watts
- Hand-operated

Leister Triac S Welding Kit #70287
Perfect kit for all your hand welding requirements

Technical specifications:
115V, 1600W heating element, temperature 68–1200°F

Includes:
Triac S Welding Gun, single nozzle 5 mm, quick welding nozzle 4 mm, Hand Groover, diamond grindstone, quarter moon knife, weld seam slide, 15mm welding rod roller, cleaning brush, carrying case

Leister Triac S Gun Only #38465

WOLFF GREENCUT

Wolff GreenCut #63998

Multi-function Tool
- For trimming factory edges
- For cutting strips and seams
- Includes 2 guides for needle punch and resilient floor coverings
- All-metal construction
- Suitable for left and right hand operation

Includes:
GreenCut Multi-function Tool, 4 mm guide, 2 mm guide, 3 strip guides (5 mm, 10 mm, 15 mm), spacer plate, 10 straight blades, 10 hooked blades

Accessories:
Straight blades (100 pcs.) #13419
Hooked blades (100 pcs.) #13421

NEW

For cutting and edge trimming
All-metal construction
Includes 2 cutting guides

See Weldmaster in action

NEW

The WolFF automatic welding machine for any requirement
Linocut seam cutter

Counter guide for Linocut #60676

Includes:
- Linocut, standard metal sheet guide (2 mm), needle punch carpet guide (4 mm), 10 spare blades (2 already mounted)

Additional installation guides:
- Standard metal sheet guide, 2 mm #13430
- Carpet guide, 8 mm #13432
- Needle punch carpet guide, 4 mm #13431

Edge cutting guide #13449

3 edge width settings from 1/2”-2 3/8” (1.5 to 6 cm). Suitable for all versions of the Linocut.

Counter guide #60676

To use the Linocut as counter scriber or cutter to work directly along the wall. Suitable for all versions of the Linocut.

Strip cutter

For cutting strips for skirting, stairs & risers and for trimming factory edges.

For strips 0-3” (without web) #13350
For strips 1-8” #13351
For strips 2-1/2-12” #13352

Accessories:
- Replacement blades, 10 pack #13353
- Rear blade, 5 pcs. #13447
- Conversion kit (for hooked blades) #13354
- Hooked blades, 100 pcs. #13421

Linoleum edge cutter

For pre-cutting the factory edge in order to remove stress along seams and/or removing transportation damage.

Includes:
- Linoleum edge cutter, 2 blades

Accessories:
- Pointed blades, 5 pcs. #13358

Pro Circle cutter

Circle cutter and scriber for resilient, carpet, hardwood and laminate.

For precise cutting & scribing of circles and circle segments with a diameter of up to 8 1/2” - with extensions over 52”.

- Precise, reproducible circles
- Attaches with suction cups
- Quick setting of radius
- Scribing, cutting or milling
- Knurled screw for exact depth adjustment of blade

Includes:
- Pro Circle Cutter, plexiglass disc w/adhesive strips, extension rails up to 4” radius, pencil, square blades, carrying case

Additional installation guides:
- Replacement blades, 6 pcs. #13625
- Extension rails, up to 16” radius #13629
- Connecting piece for top milling machine #13627
- Adapter for corner and wall radius (creates circle segments centered on a wall corner or a point along a wall) #13631
- Joint planer for circle cutter #13626
- Replacement blade #13427

PUR welding nozzle

Special nozzle for thermal welding and jointing of floor coverings which have a factory-applied polyurethane coating.

Includes:
- PUR welding nozzle, single nozzle 5 mm, used to hold welding nozzles #13465
- Quick welding nozzle 5 mm with large air slide #13308
- 4 mm with large air slide #70812
- Quick welding nozzle for polyolefin
  - Inlet 4 mm small air slide #13466
  - Inlet 5 mm small air slide #91213
Gooseneck nozzle
Excellent for blending trimmed welding rod to floor surface, especially at coving and inside corners.

#13469

Broad nozzle
20 mm  #19524
20 mm, angled  #13472
40 mm  #13473

Mipolam nozzle
Accessories:
Welding rod roll, 25 mm  #15610
Welding rod roll, 15 mm  #15611

Radiator nozzle
#13470

Quick welding nozzle for elastic wall coverings
#13471

Correction nozzle
#13469

Hot Tip Tool Kit
For cutting, grooving and trimming of weldable floors at coving, inside and outside corners.
Comes with Teflon-coated spoon tip, 4 assorted exacto tips and stand.
#72953
Hot Tip Tool  #72904
Tool Stand  #72901
Tip Rings  #72903

Hand Groover with guiding pin
Adjustable groove depth.
Accessories:
Replacement blades, 10 pcs.  #13425

Rolling Groover
Two small wheels to guide along the seam. Adjustable groove depth, 4-sided blade.
Accessories:
Replacement blade  #13427

Combi scriber
For scribbling and cutting resilient flooring. Can be used as scriber and counter scriber.
Includes:
Combi scriber, 2 scriber needles for linoleum and 2 pointed blades for PVC and rubber (in the handle)
Accessories:
Scriber needles, 20 pcs.  #13356
Pointed blades, 5 pcs.  #13358

Seam trimmer
For trimming welded seams at inside and outside corners.
Includes:
Seam trimmer without blade
Accessories:
Round blade, 6 mm  #13813
Round blade, 12 mm  #13866
Pointed Blade  #13869
Flat blade  #13870

Groover for rubber floors
#13842
Accessories:
Replacement blades, 10 pcs.  #13843
**Groover**

Adjustable guide, 4-sided blade. 
Accessories:
Replacement blade #13427

**Welding rod roller**

To press the welding rod into the joint.
Welding rod roller, 1” (25 mm) #15610
Welding rod roller, 9/16” (15 mm) #15611

**Push-off knife**

For removal of weld seams at skirting boards. With lateral distance guide. 
Accessories:
Replacement blade #14539

**Mozart push-off knife**

The universal solution for trimming welding rod in a clean and fast manner. Integrated weld seam slide for pre-cutting, replaceable blades, replaceable spacer forks for adjusting cutting heights to eliminate scratched or damaged surfaces, internal cutting edge reduces injuries, ergonomic handle.

Includes:
Push-off knife with blade and 0.50 mm spacer fork

Accessories:
Replacement blades, 5 pcs. #49876
Spacer fork, 0.50 mm #50772
Spacer fork, 0.70 mm #51270
Replacement screw set #59856

**Weld seam slide**

Fits flat and angled Quarter moon knives. See Item #13451 and #13452 #13450

**Quarter moon knife / Flat**

For trimming welding rod. 
#13451

**Quarter moon knife / Bent**

For trimming welding rod. 
#13453

**Quarter moon knife / Angled**

For trimming welding rod. 
#13452

**Blade Cover**

Helps keep your knife sharp. 
#60078

**Diamond grindstone**

To sharpen all knives and blades. Collapsible, grinding surface 1” x 4”. Double sided, one side medium grit and the other fine grit. 
#15714
Carpet clamp
Perfect for removing glue-down carpeting and other bonded flooring materials. Made of durable high-quality aluminum in an ergonomic design to protect hands and fingers. Tested to a pulling force of 440 pound force. #16887

Hammer bar
Zinc plated, with felt backing.
Hammer bar, 17" #15832
Hammer bar, 22" #13840

Cork rubbing board
For rubbing down and installing floor coverings into adhesives. Heavy-duty construction. #60556

Seam scriber
For scoring vinyl, PVC or other hard flooring. Adjustable scriber needle. #13355
Accessories:
Scriber needles, 20 pcs. #13356

Magic Wand wall scriber
For scoring & transferring the wall line onto the flooring. Distance from wall can be set from 3/4" to 14". #16149
Accessories:
Scriber needles, 20 pcs. #13834

Rubbing hammer
For rubbing down floorcovering seams into adhesives. Forged with wooden handle. #13619

Design Collection tools
Complete tool set for creating & installing design floors. #59035
Includes:
Linocut seam cutter, FasTrimmer for chamfering the floor backing, pressure roller Duo, mitre-box scissors, carrying case

Mitre-box scissors
Double action, with guide. For creating & laying design floors. #15648
Accessories:
Replacement blade #15649
Replacement pad #15650

Skirting board scissors
With guide. #15651
Accessories:
Mitre-box guide #23196
Replacement blade #17471
Replacement pad #60736

Height scriber
For skirting boards, pencil included. #15555

Stair scriber
For scoring stair flooring. #15620
Accessories:
Scriber needles, 20 pcs. #13356

Stair bevel
To easily determine lengths and angles of stairs. #15563
FasTrimmer - Top Bevel Cutter
Creates a top beveled edge of 25° on vinyl, PVC and design floor coverings after they have been cut. Comes with a guide for cutting the material off the floor or directly in the adhesive bed.

Includes:
- FasTrimmer TBC, quick guide, carrying bag, 6 spare blades

Accessories:
- Guide for beveling floor backing and repairing factory edges
- Replacement blades, 6 pcs.

FasTrimmer - Back Bevel Cutter
Creates a back beveled edge of 25° on vinyl, PVC and design floor coverings after they have been cut and also repairs damage to the factory edge.

Includes:
- FasTrimmer BBC, quick guide, carrying bag, 6 spare blades

Accessories:
- Replacement blades, 6 pcs.

Double head stretcher
For balancing pattern drift and correcting lanes or seams. Can be adjusted to any carpet by setting the coarse and fine grippers.

Includes:
- Double head stretcher, carrying case

Accessories:
- Pulling angle
- The pulling angle converts the double head stretcher into a tubeless power stretcher.

Circle cutter
For patch repairing carpet. Adjustable from 1-1/2” to 8” diameter.

Includes:
- Circle cutter, 3 blades

Accessories:
- Replacement blades, 6 pcs.

Head seam straight edge
31” x 3” (800 x 75 mm)

Door straight edge, bowed
Hardened & polished. Adjustable from 24° to 51°. Steel sheet 0.7 mm thick.

Skirting board template
1” (25 mm) radius
2” (50 mm) radius

Flexible steel straight edge
Premium quality stainless steel. Bowed, with retaining clip. Maximum deviation from straightness: 5/64” (2 mm) in 10’.

Size: 6.8’ (208”) x 3”

Size: 13.4’ (408”) x 3”

Size: 16.6’ (500”) x 3”

Flexible steel straight edge with T stop
Premium quality stainless steel. Bowed, with T stop and retaining clip. Maximum deviation from straightness: 5/64” (2 mm) in 10’.

Size: 6.8’ (208”) x 3”

Size: 13.4’ (408”) x 3”

Size: 16.6’ (500”) x 3”

Flexible steel straight edge, anti-slip
Premium quality stainless steel. Rubberized, anti-slip backing. Will not scratch floor. Maximum deviation from straightness: 5/64” (2 mm) in 10’.

Size: 6.75’ (201”) x 3”

Size: 13.25’ (401”) x 3”

SKIRTING BOARD TEMPLATE
1” (25 mm) radius
2” (50 mm) radius

DOUBLE HEAD STRETCHER
31” x 3” (800 x 75 mm)

CIRCLE CUTTER
For patch repairing carpet. Adjustable from 1-1/2” to 8” diameter.

HEAD SEAM STRAIGHT EDGE
31” x 3” (800 x 75 mm)
## Substrate test kit

Contains all the equipment necessary to test substrates and carry out moisture tests to prepare a CCM measurement.

- **Thermohygrometer**: Combines thermohygrometer, laser pyrometer, and dewpoint alarm device in a single instrument.
- **Concrete moisture meter**: Hand-held instrument for quick and non-destructive moisture content determination.
- **Scratcher**: Scratcher, scratch template and protective bag
- **Measuring wedge**: For measuring the deepest point between 2 support points of a straight edge. Can be read from the top.
- **Accessories**: Chisel w/hand protector, folding rule, hammer, pencil and wire brush.

**Includes:**

- Wooden case, thermohygrometer W-TH, concrete moisture meter W-ES, concrete and leveling compound tester, chisel with hand protector, hammer, pencil, wire brush.

## Thermohygrometer W-TH

The W-TH combines thermohygrometer, laser pyrometer, and dew point alarm in a single instrument. Three operational modes and various measuring functions, all of them selectable via a thumbwheel in a one-hand operation make the W-TH a pocket-sized measuring station.

- **TH** mode with thermohygrometer functions
- **In IR** mode, can be used as laser pyrometer to measure surface temperature with position marking
- **Dew point alarm function** in DP mode
- **Visual and acoustic alert** when temperature deviations occur
- **Quick determination** of weak spots

**Includes:**

- Metal grid filter to alleviate issues with dirt and dust.
- Function for real-time temperature compensation of measured material.

**Accessories:**

- Replacement tips

## Concrete moisture meter W-ES

The W-ES is a professional hand-held instrument providing a quick and non-destructive determination of moisture content in near-surface areas up to 1-1/2".

- Continuous real-time display of measured values on an easy to read display
- Suited to carry out preliminary substrate tests to determine the application appropriateness of construction and flooring materials
- Minimum, maximum, and hold functions for quick evaluation of measured values
- Individual alarm limit with acoustic signal

**Includes:**

- Replacement tips #52703

## Measuring wedge

For measuring the deepest point between 2 support points of a straight edge. Measuring wedge can be read from the top.

**Includes:**

- Scratcher, scratch template, protective bag

## Scratcher

Used to assess the strength of the substrate. Parallel lines are scratched into the floor at an angle of 40-60°. The scratched grid and removed debris determine the results.

**Includes:**

- Chisel w/hand protector, folding rule, hammer, pencil, wire brush

## Material moisture meter W-MM

The W-MM is a professional hand-held meter used to measure the exact moisture content of wood and other materials.

- Measures moisture in wood and other materials
- Autocalibrating
- Easy one-hand operation
- Select among hundreds of different wood types
- Numerous validated material curves with material numbers
- Wood type index included
- Function for real-time temperature compensation of measured material
- Measured value can be saved via hold function

**Accessories:**

- Replacement tips

## Spiral cage mixing paddle - MK type

Rugged professional mixing paddle for use with epoxy resins. Mixing action: bottom to top, cage diameter: 4-3/4" (120 mm), shaft length: 23", shaft style: M14 threaded.

**Includes:**

- Chisel w/hand protector, folding rule, hammer, pencil, wire brush

## Flat cage mixing paddle - KR type

Ideal mixing paddle for leveling compounds. Prevents formation of lumps. Also suitable for mixing very viscous sealers or adhesives where high shear forces are needed. Mixing action: parallel, cage diameters: 3-1/2" (90 mm), 4-3/4" (120 mm), shaft length: 23", shaft style: hex.

**Includes:**

- Chisel w/hand protector, folding rule, hammer, pencil, wire brush

## Flat cage mixing paddle - KR type

Ideal mixing paddle for leveling compounds. Prevents formation of lumps. Also suitable for mixing very viscous sealers or adhesives where high shear forces are needed. Mixing action: parallel, cage diameters: 3-1/2" (90 mm), 4-3/4" (120 mm), shaft length: 23", shaft style: hex.

**Includes:**

- Chisel w/hand protector, folding rule, hammer, pencil, wire brush
Smoothing trowel
11” x 5-1/4” (280 mm x 135 mm) #56203

Grinding stone
For grinding concrete and compounds.
Grinding stone #13493

HM grinding stone
For rough grinding or coarse dirt removal. Contains hard metal splinter for increased aggressiveness. Angled work surface for grinding along walls.
HM grinding stone, grit 24 #15718
HM grinding stone, grit 18 #15719

Ergostar trowel
Shaped, plastic ergonomic handle reduces fatigue. Easy to clean.
Ergostar trowel, 8” (21 cm) #41784
Ergostar trowel, 11” (28 cm) #41787
Trowel insert, B11, 8” (21 cm) #13380
Trowel insert, B3, 8” (21 cm) #13372
Trowel insert, B11, 11” (28 cm) #13399
Trowel insert, B3, 11” (28 cm) #13387

Interchangeable trowel
Economy trowel.
Interchangeable trowel, 8” (21 cm) #13378
Interchangeable trowel, 11” (28 cm) #13381
See trowel inserts above

Leveling compound rake
For applying leveling compounds. Includes pole insert for attaching handle (see threaded insert below). Width: 22” (56 cm), comes with 3/16” x 5/32” x 1/16” notch insert.
Leveling compound rake w/insert #67118
3/16” x 5/32” x 1/16” (R2) notch insert #13396
Threaded insert (for handle) #67118

Spike rollers
For aerating leveling compounds. Splash guard included. Working width: 30” (75 cm).
Spike length 7/16” (11 mm) #14270
Spike length 1-1/4” (31 mm) #13638

Nail shoes
For walking in wet leveling compound or other filled substrates or surfaces.
#51549
Includes:
Nail shoes, set of replacement nails, 2 replacement straps

Corrugated links
For repairing flexible joints and cracks in concrete substrates. For friction-based sealing of expansion joints. 2-3/4” long (75 mm), 1/16” wide (2 mm).
Corrugated links, 1,000 pcs. #13932
Corrugated links, 100 pcs. #13878
About UFLOOR Systems, Inc.

UFLOOR Systems, Inc. (Aurora, CO USA) is the North American subsidiary of Uzin-Utz AG, Ulm, Germany. The company was founded in 1911 and is a vertically integrated manufacturer of product systems designed for the preparation, installation, finishing and care of all types of floor coverings. UFLOOR Systems offers its products under the Pallmann, UZIN and Wolff brand names.
